Product notes & order guidance

Product overview

Starlight preformed natural crowns are offered with a ridge-lap design and right and left options. The existing product information describes all tooth lengths as 13 mm.

Gold finishes

The preformed line is produced in specially formulated 22kt yellow gold. White and coin gold finishes are available by special order.

Size selection

Download the Preformed Natural Crown Size Chart. The existing source advises that sizes may vary slightly; verify the correct crown with Starlight.

Contact to order

Request a current quote and product availability by phone or website inquiry. These products are not sold through an online checkout.
